

To Whom It May Concern,

It is my pleasure to write in support of Mr. Arnesh Banerjee, who is applying for summer research internship positions. I have known Arnesh as his instructor at Heritage Institute of Technology, Kolkata, and as a mentor on a research project that resulted in an accepted conference publication at the Analytics Global Conference (AGC) 2026.

Working with Arnesh on research gave me a close view of how he approaches problems. He is self-directed, technically capable, and completes his work without needing to be managed. He engaged with the subject matter seriously and consistently went beyond what was expected of him. These are qualities I find uncommon at the undergraduate level.

Arnesh has a GPA of 8.876 and has pursued research well outside the classroom. He has an arXiv preprint from a research internship at the New Jersey Institute of Technology and is currently working as an undergraduate research intern at Jadavpur University. His record reflects a student who seeks out research opportunities on his own initiative and follows through on them.

I recommend Arnesh without reservation. He is among the top students I have worked with at this stage of their undergraduate studies. Please feel free to contact me if you require any further information.

Sincerely,

Arpita Talukdar. 16/03/2026

Arpita Talukdar
Assistant Professor
Department of CSE(Data Science)

Additional Recommender Information

In addition to the attached Letter of Recommendation, another recommender has kindly agreed to provide a confidential recommendation upon request.

Prof. Arnob Ghosh prefers to submit recommendation letters directly to the reviewing professor rather than sharing them with students.

If required, the admissions committee may contact him directly using the details below.

Prof. Arnob Ghosh
Assistant Professor
Electrical and Computer Engineering Department
New Jersey Institute of Technology
